Social Distancing

**Keep one wavelength
apart at 146.52 MHz**

We are looking for more Net Control Operators!! If you are willing, please let me know.

The Net Control Operator tonight is Eric Richards KI5BZO. Pre-net visiting and early check-ins start around 7 PM and the “formal” part of the Net starting with Prayer and Pledge at 7:30 PM.

Here is the rotation for net control. This is subject to change and most the time without notice! If you cannot fulfill your duties on your night, please contact the next weeks net control operator.

Nov 19 - David Jackson

Nov 26 - Clarence Shilling

Dec 03 - Eric Richards

Dec 10 - David Jackson

Dec 17 - Clarence Shilling

Dec 24 - Eric Richards

Dec 31 - David Jackson

November Club Meeting

The November 7th club meeting was held on the air. The club unanimously re-elected the current officers and director to serve another term for year 2021. Charles Mackey, president, had contacted each one. They agreed to serve another term. There were no oppositions in any position.

Officers for 2021

President: -Charles Mackey KF5VAA
Vice-President: -Carl Nyman AA5VE
Secretary: -Robert Ward N5TXK
Treasurer: -David Glenn KF5VAE
Director 1: -David Teague (2022) N5GTE
Director 2: -Richard Arthur (2023) N5RGA
Director 3: -Clarence Shilling (2021) WB5BYV

We are excited to share that on Saturday, December 5th, the National Weather Service in Shreveport will host Skywarn Recognition Day virtually. Unfortunately, due to COVID-19 restrictions, we will not be able to welcome you inside of our office this year. However, this opens up a great opportunity to host both our Skywarn Spotters and our amateur radio operators virtually over GoogleMeet from 9:00-10:30 a.m. We invite all of our Skywarn Spotters to attend. This will be a part of a larger, national Skywarn Recognition Day event that runs from 6:00 p.m. on Friday, December 4th to 6:00 p.m. on Saturday, December 5th. That morning, we will have a presentation reviewing the high impact weather events for our area in 2020 and we will also recognize the 2020 Skywarn Spotter of the Year (2019 Spotter of the Year- Steven Carter, Haworth, OK). Please pass this along to any Skywarn Spotters and HAMs within your network.

If you plan to attend, you must first register at: [Skywarn Recognition Day Registration](#) by Tuesday, December 1st. The GoogleMeet information will be shared with registrants on December 2nd.

Amateur radio operators that want to set up and operate from the office parking lot from 6:00 p.m. on December 4th until 6:00 p.m. on December 5th may do so, however please understand that due to COVID-19 restrictions you will not be able to come into our office or access our restrooms. Those that set up outside in the parking lot are expected to social distance or wear a mask when that is not possible. If you plan to set up in our parking lot, please make sure you include that in the notes of the registration form. Also, please note that if you are setting up outside during the

	GoogleMeet you'll need to watch it outside from a laptop or phone.

Nationwide Red Cross Emergency Communications Drill, Joint Exercise with ARES

The Nationwide Red Cross Emergency Communications Fall Drill is a joint exercise with ARES set for November 14, an evolution of the highly successful Spring Drill that had hundreds of participants from some 40 states and Puerto Rico.

The Fall Drill will be a Winlink-specific event with the following goals: (1) pass traditional Red Cross (ARC) forms from as many states and as many radio amateurs as possible to one of six Divisional Clearinghouses, and (2) bring as many radio operators as possible up to a "basic" level of Winlink proficiency. To prepare, there is a twelve-week series of Winlink Workshops held each Thursday at 0100Z on Zoom. (Actual local time is Wednesday, 7:00pm!! We are 6 hours behind Zulu time.)

Join the [SEC-ARES group](#) for announcements and discussions. Include your name and call sign when registering on SEC-ARES.

Winlink Proficiency Goals have been written, a Winlink Technical Support Team has been formed, and Metrics for Drill Success have been developed. The proficiency goals are established as a training guideline and references online training resources. Many hams new to Winlink should find these resources helpful.

Over 300 radio amateurs have signed up for the event and more than a hundred were on a Briefing Call on October 5. There will be one other Briefing Call, in early November. This event is open to all radio amateurs; if interested in more information, contact [Mike Walters](#),

[W8ZY](#), for ARES-related questions or [Wayne Robertson, K4WK](#), for Red Cross-related topics.

Tuesday morning breakfast has changed to B and J Downtown Diner! Located at 422 N. Stateline Avenue just behind the courthouse.

Friday Morning breakfast at Johnny B's. They now open at 6am!
Bring a mask!!

FCC Wants to Re-instate Fees

What used to be free, the FCC is now proposing a \$50 fee for Technician, General or Extra upgrade. This is on top of the ARRL fee of \$15. ARRL strongly recommends filing a complaint with FCC. [To file a complaint go here.](#)

Read more about it.

<http://www.arrl.org/news/fcc-proposes-to-reinstate-amateur-radio-service-fees#:~:text=%5BUPDATED%202020%2D09%2D01,rules%20it%20proposed%20this%20week>.

Steve Ogelsby, KX5FUZ, has been appointed as the ARRL ARES Emergency Coordinator for Bowie, Cass, and Morris Counties.

If you would like to join Bowie County ARES, submit the form at

http://www.4sarc.org/?page_id=1074

We don't always have a radio with us all the time. But most of us don't leave home without our cell phones.

This has become very useful. Since I am in direct communication with the meteorologist at the National Weather Service, I usually know about pending weather before it is publicly broadcasted.

There have been a few times where this was useful when non-weather related information needed to be disseminated quickly.

If you would like to be added to this group, email me at KF5VWN@windstream.net.
