Amazon Smile

If you shop at Amazon, Read Closely!!! Amazon **donates** money to the charity of your choice. Because of your purchases on Amazon, they have donated \$115.39 to the club. The more you shop, the more the club gets!

To do this, goto <https://smile.amazon.com/>, and log in using your normal Username and Password and choose Four States Amateur Radio Club as your charity. That's it!

The screenshot shows the Amazon Smile website interface. At the top, there is a navigation bar with the Amazon Smile logo, a greeting "Hello", and a "Select your address" button. Below this, a dropdown menu is open, showing "Supporting: Four States A..." which is circled in red. Other navigation options include "Amazon Basics", "Prime Video", "Buy Again", "Prime", and "Today's". The main content area features the Amazon Smile logo and a banner for the Amazon Shopping app. Below the banner, the current charity is listed as "Four States Amateur Radio Club" with a "Change" link, also circled in red. The location is "Texarkana, TX". A summary box shows "Generated by you" with a total of "\$0.00" as of March 05, 2022. It also states that "All US charities have received \$306,872,769.49 as of November 2021". A link for "Your AmazonSmile impact" is provided at the bottom.

They have donated over \$115 to the club so far.

The March meeting went good. Good feedback from having the meeting at Golden Corral.

They have just about every breakfast food you can think of. Eggs and Omelets made to order, bacon, sausage, waffles, pancakes, fruit, yogurt and a lot more. Coffee is available at the table, just tell the waiter.

All-You-Can-Eat Breakfast is around \$10. They open at 8am.

NWS Shreveport Partners,

As we head into our primary severe weather season, we want to make sure you are aware of some of the resources out there to help you make weather-related decisions.

IDSS Forecast Point
Page (www.weather.gov/forecastpoints)

At this link, you can get forecast information for a user identified point anywhere in your county or parish on a day-by-day, hour-by-hour basis. The interface is pretty self-explanatory, but you can get a world of forecast information for your location with just a few clicks. This is a great tool if you have outdoor activities and would like to know when the best chances for rain are during the day/night along with specific

temperature information during a specified timeframe.

Graphical Hazardous Weather Outlook

(<https://www.weather.gov/erh/ghwo?wfo=shv>)

This *experimental* page is a decision support service for your situational awareness that supports preparedness and response efforts prior to and during hazardous weather. This service provides decision makers with convenient access to potential weather hazard information by graphically depicting the risk of weather hazards out through seven days.
