Depending on your email client you may have an option to change this behavior. The Microsoft Outlook client has this option. Simply right mouse click on the newsletter, look in Junk Mail, select Junk / Never Block Sender or Never Block Senders Domain or you may try Never Block this Group. It may say Add To Safe Senders List. There may be some other option that will work to.

Amazon Smile

If you shop at Amazon, Read Closely!!! Amazon **donates** money to the charity of your choice. Because of your purchases on Amazon, they have donated \$115.39 to the club. The more you shop, the more the club gets!

To do this, goto <https://smile.amazon.com/>, and log in using your normal Username and Password and choose Four States

Amateur Radio Club as your charity. That's it!

The screenshot shows the AmazonSmile website interface. At the top, the URL is https://smile.amazon.com/charity/my-impact?_encoding=UTF8&ref_=na. The navigation bar includes "Hello", "Select your address", and a dropdown menu currently showing "Supporting: Four States A...". Below the navigation bar, there's a banner for "Now available in the Amazon Shopping app" with a "Learn more" link. The main content area features the "Four States Amateur Radio Club" with a "Change" link, its location "Texarkana, TX", and a description: "Support your favorite charity at no extra cost when you shop at smile.amazon.com." There's also a link to "About AmazonSmile". On the right, a summary shows "Generated by you" with a current donation of "\$0.00 as of March 05, 2022" and a total of "\$306,872,769.49 as of November 2021" from "All US charities". A link for "Your AmazonSmile impact" is at the bottom right.

They have donated over \$115 to the club so far.

NWS Shreveport Partners,

As we head into our primary severe weather season, we want to make sure you are aware of some of the resources out there to help you make weather-related decisions.

IDSS Forecast Point

Page (www.weather.gov/forecastpoints)

At this link, you can get forecast information for a user identified point anywhere in your county or parish on a day-by-day, hour-by-hour basis. The interface is pretty self-explanatory, but you can get a world of forecast information for your location with just a few clicks. This is a great tool if you have outdoor activities and would like to know when the best chances for rain are during the day/night along with specific temperature information during a specified timeframe.

Graphical Hazardous Weather Outlook

(<https://www.weather.gov/erh/ghwo?wfo=shv>)

This *experimental* page is a decision support service for your situational awareness that supports preparedness and response efforts prior to and during hazardous weather. This service provides decision makers with convenient access to potential weather hazard information by graphically depicting the risk of weather hazards out through seven days.

Membership Renewal

It's time to renew. It's easy! If you are already a member, login as normally do, then click on Member Only / Member Detail. Your information should automatically populate.

If you are not member yet, click on Register at the top of the home page.
