FCC Callsign Renewal

If your ham license is coming up for renewal, you may want to start now! After 3 days of frustration, I finally got mine renewed. Basically, you have 2 accounts with the FCC. Who knew! These 2 accounts do not know the other one exists. And neither did I. There lies the problem. These 2 accounts, FCC CORES and FRN account, have to be linked together.

I find these instructions from ARRL AFTER I figured it out. But, I still had some issues.

Instructions:

1. If you haven't already created a CORES account, you must register a username (your email) and a password. Visit the [FCC CORES website](#) to set up the account.

2. When logged into the new account, choose the first option, “**Associate Username to FRN.**”
3. Enter your FRN & Comment – Comment Example: “Associating FRN.” If you do not know your FRN, you can find it by searching your call sign on the [FCC License Search](#) page.
4. Click “**Continue**”
5. If you know your password to your FRN, enter it now. This password will more than likely be different from the one you have with your username account. If you do not know your FRN password, choose the “**Forgot FRN Password**” option underneath the “**Submit**” button.
6. Once you have completed these steps and your FRN has been associated to your username, you should be brought back to the main menu. **Log out.**
7. File your renewal application using the [FCC ULS License Manager System](#) and pay the \$35 application fee.

The meetings are always held on the first Saturday of the month.

Eggs and Omelets made to order, bacon, sausage, waffles, pancakes, fruit, yogurt and a lot more. Coffee is available at the table, just tell the waiter. The doors open at 8am. Just watch for antennas in the parking lot!

Newsletter to Junk Mail

If you are not getting this newsletter, this article won't do you any good!! (That's like saying "stand up if you're not here"). If you are getting the newsletter but repeatedly going to junk mail, then read on!

Depending on your email client you may have an option to change this behavior. The Microsoft Outlook client

has this option. Simply right mouse click on the newsletter, look in Junk Mail, select Junk / Never Block Sender or Never Block Senders Domain or you may try Never Block this Group. It may say Add To Safe Senders List. There may be some other option that will work to.

Broadcastify is Back!

If you are not familiar with Broadcastify, this is an audio streaming service. This is similar to YouTube, except it streams audio only over the internet. If you are traveling away from Texarkana, you can still listen to the 62 machine.

It is really easy to setup. There are 2 ways to listen. You may either listen to the traffic by website by going to <https://www.broadcastify.com/listen/feed/39186> or by phone app.

To use the phone app, download Broadcastify by RadioReference from your app store and search for 'KD5RCA' or 'Four States ARC'. There is about 30 seconds or longer delay.

If you are not familiar with it, many fire, police, ambulance, OEM and other agencies from around the country broadcast their traffic. So if a

hurricane hits Florida or Texas, search for agencies in that area.

Membership Renewal

It's time to renew. It's easy! If you are already a member, login as normally do, then click on Member Only / Member Detail. Your information should automatically populate.

If you are not member yet, click on Register at the top of the home page.

You may pay by Paypal or by check, online or in person at the meeting.

Friday Morning breakfast at Johnny B's. They open at 6am!
